Født 16 April 1996

Licence Type AM, B

Norwegian fluent

English mother tongue

I am a student and the University of Stavanger undertaking a year study of maths. Last year I ran a small tech support business, and spent the rest of my gap year working and travelling in New Zealand where I learned a wide variety of skills. I have also taken part in many extracurriculars at school such as president of the Student Council, and running a sports tournament for a school founded charity. Outside of school, I have worked in a children's club managing games and activities and coached a under-8s football team. I am fascinated with the world around me and like to be engaged. I actively seek to be a valued part of a team, and feel that I can complement any dynamic with my skills.

School

August 2015 : University of Stavanger

Maths Year Study

August 2011 - June 2014: International School of Stavanger

International Baccalaureate Diploma Program

Work

February 2015 - June 2015: Various Work, New Zealand

- Logistical help at a horse show in Napier
- Picking royal gala apples
- Cleaning private homes
- Organising a roleplay festival for children
- Taking inbound calls for SkyTV pay-per-view
- Working as a cleaning help and reception at a hostel

July 2014 - February 2015: Datahjelp.re

Established and maintained a small data repair website, and managed a small group of clients. Worked on coding, design and database. Also provided consultation to a rug import company, and redesigned their website. Received positive feedback from my customers.

July 2013 - August 2013: Dana Petroleum

Summer internship at Dana Petroleum working with large quantities of data and statistics. Focused heavily on python scripting to convert old data into a new more readable format.

April 2012 - Oktober 2012: Verico A/S

Helped with preparation of a remote dam surveillance system on weekends to monitor the operation and construction over the course of the following years. Included creative solutions to telecommunications problems, and power delivery.

Responsibilities

August 2012 - June 2014: Student Council Executive/President

Became a part of Student Council, and won presidency the following year. One of my most valued actions was to develop regular dialogue between the misrepresented student body and the administration.

October 2012 - June 2014: Cameroon Service Project

One of the leaders for a school run charity founded to provide water to a small community in Cameroon. As a leader, ran a sports tournament to raise funds, and designed the t-shirts that were to go on sale alongside the tickets.

Data Knowledge

Windows / Mac / Linux	Very Good
Excel / Databaser	Good
Photoshop / Illustrator / Visual Design	Good
HTML / CSS / Apache (web design)	Good
Bookingssystem	Fine
